

APPEAL

to the WORLD FUTURE DAY on December 21st

We all bear direct responsibility
towards future generations
and for the survival of our planet!

We are obliged to stand up for a human life
based on love, equivalence and justice,
friendship and cooperation and to commit
ourselves to a worthwhile future in joy,
peace and freedom!

**Please help to structure this annually recurring Special Day
actively in your own environment!**

In a solemn attitude,
with benevolent thoughts,
and accompanied by creative actions!

This day is to be understood as an impulse for a better and future proofed
behaviour, which serves for the common good of our world and mankind!

Distribute this appeal,
inspire friends, groups and cultural associations –
all open hearted human beings to join this idea!
